SUMMARY

AI-first product designer skilled in **user research**, **information architecture** and **systems thinking**. Builds interactive, **AI-assisted prototypes** to validate interactions before developer handoff. Experienced as the sole designer at an early-stage startup.

EDUCATION

Indian Institute of Technology Guwahati

2024 – 2028 (Expected)

Bachelor of Design (B.Des) | CGPA: 8.31/10

EXPERIENCE

Mobiclay Technology – UI/UX Intern

May 2026 – Aug 2026

Product Redesign, Remote

- **Sole designer** for Wordgate, a strategy word game at an early-stage startup; owned **end-to-end UX decisions**.
- Rebuilt the **information architecture** around drop-offs and onboarding issues from a trial release, **reducing steps and clicks** across core flows.
- Ran **continuous user testing** and **A/B tests** on competing flows, adopting the most intuitive one for a clearer user journey.
- Built a **scalable design system** from scratch with clearer component grouping, replacing a fully hardcoded interface.
- Delivered **120+ high-fidelity screens** across gameplay, onboarding, dashboards and system states (loading, error, modal, transition).
- Prototyped key component interactions in **Figma** to validate behaviour before **developer handoff**, reducing dev rework.

Creative Banjara – Visual Design Intern

May 2025 – Jul 2025

Branding and Identity, Noida (On-site)

- Designed branding, packaging and presentation decks for **6+ client brands** across legal, F&B, fashion and nutrition under direct mentorship from the founder.
- **Collaborated directly with clients** from brand discovery to delivery, translating their direction into assets that met their goals; self-taught **Adobe Illustrator** within two weeks.

PROJECTS

ResQ – Mesh Networking Disaster Communication App for Assam

Jul 2026

Self-guided, Product Design | bit.ly/resq-mesh

- Designed an **offline-first platform** for victims and volunteers to coordinate over **mesh networking** during network failure; translated **primary and secondary research** into emergency workflows, **AI-assisted request routing** and **role-based dashboards**.
- Audited v1 through **heuristic evaluation**, peer design feedback and **WCAG accessibility checks** to drive a redesigned v2.
- Designed v2 for **responsible AI** with transparent prioritisation, consent flows, multilingual accessibility and **human-in-the-loop** decisions.

Prescribble – Prescription Writing System for Doctors

Jan 2026 – Mar 2026

Cognitive Ergonomics, IIT Guwahati (Prof. Sougata Karmakar) | bit.ly/prescribble

- Designed an **iPad-first** prescription system using **Apple Scribble** so doctors in high-volume government OPDs can handwritten prescriptions instead of typing them.
- Mapped the prescription journey in a **service blueprint** from **stakeholder interviews**, informing pharmacy integration and generic-first prescribing.
- Built and deployed an **interactive prototype on Vercel** to validate the prescribing workflow.

SKILLS

Design: User Research (Surveys, Interviews, Playtesting, Usability Studies), Information Architecture, User Flows, Wireframing, High-Fidelity Prototyping, Systems Thinking, Service Blueprints, Data Visualisation, Gamification, Storyboarding

Prototyping and AI: AI Prototyping, Human-AI Workflows, Claude Code, Vercel

Tools: Figma, Adobe Photoshop, Illustrator, InDesign, Procreate; familiar with Premiere Pro, Unity, Blender

ACHIEVEMENTS AND LEADERSHIP

- **UCEED 2024: All India Rank 38**, national design entrance exam for IIT B.Des programmes.
- **Director of Design, IITG MUN'27** (promoted from Head of Design, MUN'26): led the MUN'26 design team and visual identity across digital, print and on-ground assets for 150+ participants.
- **Student Coordinator, Centre for Career Development, IIT Guwahati** (Oct 2025 – Jan 2026): coordinated mock interviews, placement logistics and skill workshops.
